

**The George Washington University Law School
Government Procurement Law Program
is pleased to present a special colloquium on:**

“Contractor Compliance: New Rules in a Global Market”

Contractors and attorneys are struggling with how to meet a new U.S. government contractor compliance rule, issued in mid-November 2008, including a new requirement calling for mandatory disclosures of fraud and criminal behavior. The stakes are even higher now, in a globalized procurement market, because other institutions around the world -- including the World Bank -- are looking to contractors' ethical performance in the U.S. market. This program will feature a panel of distinguished practitioners and officials, to discuss the new rules and their potential impact on contractors, both here and abroad.
