Prospecting

Where do I begin and whom do I contact? There are several resources available on Westlaw and www.lawschool.westlaw.com to assist you with finding employers of interest to you.

NALP Directory of Legal Employers

NALP is the industry-wide professional home for legal career professionals. NALP brings together both law schools and legal employees to share information, research and professional development opportunities.

NALP's institutional members include over 1100 legal employers and law schools throughout the United States and Canada. NALP's individual members include over 1900 professionals involved in all aspects of the legal employment process.

NALP directory is available on www.lawschool.westlaw.com. Click on **Career Resources** and then **NALP Directory** under **Job Postings Databases**.

Profiler – Profiles of Attorneys and Judges (Profiler-WLD)

Profiles of Attorneys and Judges has more than 1,000,000 profiles of law firms, offices, and lawyers from all 50 states, Puerto Rico, the Virgin Islands, the District of Columbia, Canada, England, and Europe.

West Legal Directory contains over 1,000,000 profiles of law firms, branch offices, and biographical records of lawyers. A document is a profile of a lawyer, law firm, government office, or corporate law office.

Westlaw Profiler is the first and only resource of this kind in the legal industry to connect primary and secondary traditional legal research materials to West Legal Directory people data. This new feature connects the "who" with the "what" in legal research. Users are able to view a profile of an attorney, judge or expert witness and see a listing of links to State and Federal case law from 1990 forward, jury verdict summaries, Supreme Court and California Supreme Court briefs from 1990 forward, other industry directories and articles in the Law Firm sector.

LawStudent JobsOnline

The screenshot shows the LawStudent Jobs Online website. At the top, there is a navigation bar with links for Home, Find a Job, Career Center, and Log Out. Below the navigation bar, the main heading reads "Thousands of Opportunities Exclusively For Law Students!". There are two main content areas: "Career Resources" on the left, which includes a book cover for "Legal Career Management" by Hermann's Legal Career, and "Search our Jobs Database" on the right, which describes an extensive database of summer and other positions for current law students, plus special programs for new grads such as fellowships, honors programs, and judicial clerkships. Below the search database section, there is a "Summer Associate Law Firm Directory" section, which states that summer associate law firm jobs are listed from participating law firms and can be searched by state, outside the U.S., and by keyword. Each entry is linked to the full description of the firm's summer program inside the Law Student Jobs Online database.
