SELECTED COURSE DESCRIPTIONS

6505-ON Government Contracts Advocacy: Bid Protests (2) T. Ward
This course gives students the opportunity to explore the role of counsel assigned to a bid protest related to award of a government contract, either as agency counsel, protest counsel, or intervenor counsel. In their first year of practice, most government contracts attorneys will encounter bid protest litigation in one form or another. The bid protest scenario presented in this course will be similar to complex, multimillion dollar cases attorneys face in practice. Students will experiment with litigation strategies and construct arguments on behalf of clients throughout the bid protest process. Students will receive faculty and peer feedback on oral and written advocacy work products. This course will be offered for 2 credits in the Summer 2023 semester. *Priority registration to LL.M and M.S.L. students; open to J.D. students with advanced, written permission of the Program Director. Enrollment capped at 18.

6513-30 Selected Topics in Government Procurement Law: Introduction to Federal Appropriations Law* (1) M. Greene
This course provides experiential learning for students planning a career in the federal government advising and leading legislative, executive, or judicial branch programs. An understanding of federal appropriations law is a fundamental skill for all federal attorneys. The identification of an available appropriation, its permissible uses, and any relevant restrictions or prohibitions, is a threshold issue prior to taking any federal action, including executing a federal contract. Federal attorneys with a working knowledge of appropriations law bring critical expertise to bear in advising internal agency clients on how to maximize scarce resources. (Writing assignments and class participation) (Experiential) Enrollment capped at 18.

6513-ON Selected Topics in Government Procurement Law: Other Transactions (1) H. Balkin
This course provides experiential learning for students planning a career in the federal acquisition field as well as in the private sector. An understanding of Other Transaction Authority (OTA) is a fundamental skill for all federal attorneys. The identification of a prototype or research Other Transaction (OT) requirement, its permissible uses, and any relevant restrictions or prohibitions, is a threshold issue prior to taking any federal action, including executing a federal contract. Attorneys with a working knowledge of OTA bring critical expertise to bear in advising internal agency clients on how to maximize scarce resources and broaden the industrial base. While OTA is a “tool” in the acquisition “toolbox,” it offers a much more flexible approach over a traditional FAR-based procurement contract, allowing the government to emulate commercial negotiations and practices (in-class and written exercises, class participation); Enrollment requires students to have completed Law 6500 or 6502, or receive written permission of the Program Director (Experiential) Enrollment capped at 18.
